It is recommended that students obtain a tetanus shot, but it is not required. They are offered at the Central District Health Department.

CLASS OBJECTIVES

Students will learn the process of constructing and altering theatrical costumes and apply those skills to various projects and productions. This includes the knowledge of tools, materials, and techniques. The class will give them the basic knowledge of hand and machine sewing skills needed to construct and alter garments that can be applied in departmental productions and advanced technical classes.

a. Learn safety and proper use of machinery and tools.
b. Learn basic hand sewing techniques.
c. Learn basic machine sewing techniques.
d. Learn costume crafts as time permits.
e. Participate in the construction, alteration of costumes for the stage.
f. Understand teamwork and participation on a professional level.
g. Apply organization and cleanliness to maintain a safe and productive environment.

COURSE REQUIREMENTS

Students will have a specific day of the week that they will be required to attend lab. They will be required to abide by this schedule for the entire semester.

Students will be expected to:
a. Attend class on assigned day for the full class time.
b. Operate equipment
c. Do assigned samples.
d. Construct and alter costumes for Departmental productions.
e. Keep work areas and shop neat and tidy.
f. Work in a productive manner
g. Play well with others
h. Final Project TBD

GRADING

60% of the lab grade is based on attendance. Each absence will result in the course grade dropping one letter. If you are tardy 3 times it is considered an absence. If you are absent 3 times you will be considered to have failed the class. 40% of the grade is based on participation, attitude and following the rules.

Missed labs are not allowed to be made up.
